Problem

- IT industries lack diversity in every form.
 - Majority of the industry is white males and it lacks women and minorities.
- Technology is rapidly being used everyday throughout the world.
- Small businesses are forming everywhere and they overall lack secure websites, and solid technological infrastructure
- Without IT assistance many of these small businesses may fall victim to a common customer pain
 - Loss of Productivity.

U.S. diversity stats for tech

Competition:

IT Support from independent contractors

- Lacks personal connection.

Groups like Geek Squad

- Lacks individual care and less diverse service.

Large corporations like Apex & Techsystems

- Made for work on a larger scale and too expensive.

Roadmap:

- Seeking out investors.
- Seek out candidates to compliment our team.
- Inquiring about **MWBE Certification**.
- Talk to potential customers and gather information on what they need and want from a IT Service business.
- Actively developing individual focus points to utilize our team's varying skill sets for the progression of the venture
- Protect intellectual property like trademarking the Plum Tech name, logo, and slogan.
- Pursuing outside third party endorsements/partnerships to save on costs.

**The world is changing, technology is growing,
come grow with us.**

PLUM Tech, People Like Us Matter.
